Standard in all Platforms

InfoTouch General Retail™: from infoTouch is a flexible affordable POS software platform that is customizable for over 200 different industry solutions. This award winning software has a deep array of functionalities that can service a broad mix of different industries with all the features needed to achieve a robust full service platform for your business.

Layaways / Quotes / Special Orders / Work Orders

Inventory: All InfoTouch Systems update the inventory in real time. Each item can have a retail price plus 9 additional price levels and be sourced from up to 10 different vendors. You can maintain serialized inventory as well as a wide array of sophisticated pricing levels - such as Quantity Unit Pricing, Fractional Quantities, Buy 1 get 1 Free, Buy 1 get 40% off the next purchase, etc. Additional functions: Open to Buy for Department Budget tracking, Substitution and Alternative Keys.

Bar Code Label Printing and Item Price Labels, print out-of-the-box. Butterfly label printing for Jewelry Stores is also standard.

Customers: Sales history, integrated loyalty program, Accounts Receivable (AR), frequent shopper pricing, and purchasing trends. The A/R module can print customer statements and you can use shopping patterns to generate mailings or email blasts.

Consignment Features: Track any consigned item by both the item & the vendor that provided you the inventory items. Review items sold and margins realized by dollar profit or percent profit. Run a value report for all consigned items in inventory by an individual consignee.

Optional POS Appointment / Scheduler

- Easy to use appointment/scheduler is flexible
- Set up automatically recurring appointments and review customer sales on screen while making a sale
- Book parties, classes, and employees for any time/service
- Automatic text and email conformations for each booking
- Set up automatically recurring appointments and review customer sales on screen while making a sale
- Complete integration with online Appointment/Scheduler.

Integration W/Online Appointment Book

InfoTouch General Retail™ features an optional integration to an online Appointment Book & Scheduling Manager through the BookMeOnLine.NET™ website. Customizable online booking features include seamless, flexible tracking and scheduling for parties, events, clubs and classes. Manage appointments on line and in synchronization with the POS allowing you to book events, reserve rooms, events, provide instructional classes and training. Construct your own free website pages. The Book me Online site can offer your customers 24/7 online booking, appointments, the option to require deposits and offer specials for online services. Automatically send out email and text message reminders prior to each booking. Mobile APP's are available for employees/clients.

Standard in all Platforms

Employees: Time, attendance and gross wage calculations are at the center of the employee module. All employees can clock in/clock out through any register in the system while managers can monitor and adjust these entries accordingly. In addition to hourly and salaried wage rates, the system calculates individual or group commission plans, individual or group bonuses, contests, and incentives for employees. Employee shift scheduling is also available.

Purchase Orders: Integrated with the Inventory module, purchase orders can be created automatically using the Min/Max/Reorder quantity scheme, sales history, or by specific vendor, lowest cost or fastest delivery time.

Reports: You have access to an enormous amount of information with the 100+ reports that come standard. Most reports have multiple search and sort criteria giving you maximum flexibility in analyzing your operations. All reports come with the option to view on screen, print or save for export to other applications.

On Screen Information: One touch and you can easily look up inventory in a variety of ways. Scan, search and review any item on screen. Look up previous customer sales histories on the POS screen in the middle of a sale. Easily print gift receipts (with no prices showing).
