Why Touch Screen is the right choice:

- Touch cuts errors by 40% and reduces training times by 30%
- Touch is more durable in a harsh retail environment
- Touch uses less prime merchandising counter space
- Touch produces 35-50% improved checkout throughput

Integration W/Online Appointment Book

InfoTouch Salon™ features a fully integrated appointment book at the POS. Now you have the option to synchronize all features with a on line appointment book from BookMeOnLine.NET™. This website features all the features found in the infoTouch POS appointment book which include seamless, flexible tracking and scheduling per client. The ability to track and split commissions between multiple stylists, or any service professional. All stylists and providers of any service can manage and manipulate their schedules and appointments through the internet or at the POS. Automatically send out email and text message reminders prior to each appointment. BookMeOnLine.NET™ provides you tools to construct, free of charge, your own unique web site pages. Your site can offer your customers access 24/7 to book online, mobile APPs are available as an advanced feature. Utilize customer history & loyalty features to retain your loyal customers!

Standard in all Platforms

Employees: Time, attendance and gross wage calculations are at the center of the employee module. All employees can clock in/clock out through any register in the system while managers can monitor and adjust these entries accordingly. In addition to hourly and salaried wage rates, the system calculates individual or group commission plans, individual or group bonuses, contests, and incentives for employees. Employee shift scheduling is also available.

Reports: You have access to an enormous amount of information with the 100+ reports that come standard. Most reports have multiple search and sort criteria, giving you maximum flexibility in analyzing your operations. All reports come with a option to view on screen, print or save for export to other applications.

Customer Appointment History: Sales history, appointments history, integrated loyalty program, accounts receivable (AR), frequent shopper or VIP pricing are all standard features in every InfoTouch Salon and Spa package. The A/R module can print customer statements and you can use shopping and or appointment booking patterns to generate customer email blasts or to market your business and drive traffic to you new online web pages.

Redefining Point of Sale
